NSW	Prospect	56.40	ALP	VIC	Casey	61.35	LP	VIC	Mallee	74.75	NP

Explanatory Note:

* TPP (two-party-preferred) is usually the same as TCP (two-candidate-preferred), however they are different when the final two candidates are not ALP and Coalition candidates. This is referred to as 'non-classic' TCP.

** At the 2004 election in the divisions of Calare, Kennedy, New England and Mayo the final two candidates were not from the ALP and the Coalition. In these divisions, a further scrutiny for information was conducted to show the result of the count indicating the next available preference to the ALP and the leading Coalition party candidates for statistical purposes.

For those divisions where the two-candidate-preferred (TCP) count was not between ALP and the Coalition the following TCP results are:

NSW	Calare	Ind: 78.26	LP: 21.74	Redistribution 2006	Safe Independent
NSW	New England	Ind: 71.38	NP: 28.62	Redistribution 2006	Safe Independent
QLD	Kennedy	Ind: 68.83	ALP: 31.17	Redistribution 2006	Safe Independent
SA	Mayo	Ind: 38.19	LP: 61.81	Election 2004	Safe LP/NP

\# These are divisions, post 2006 redistributions, whose notional seat status indicates a change from one party to another.

FEDERAL ELECTORAL BOUNDARIES

Australia's Electoral Boundaries

This map is for illustrative purposes only to indicate the location of electoral division boundaries for the House of Representatives.

The redistribution of electoral boundaries in the Australian Capital Territory was concluded in November 2005 without the need for a public enquiry and with minimum change. A redistribution of federal electoral boundaries in New South Wales and Queensland commenced in 2005. As a result of these redistributions the number of divisions in Queensland increased from 28 to 29. The new division in Queensland will be known as the Division of Flynn. The number of divisions in New South Wales decreased from 50 to 49, as the Division of Gwydir was abolished.

The number of House of Representatives seats for each state and territory for the next Federal Election will be as follows:

New South Wales	49
Victoria	37
Queensland	29
Western Australian	15
South Australia	11
Tasmania	5
Australian Capital Territory	2
Northern Territory	2
Total	**150**

Note: The map includes a chart showing marginality of seats in ascending order. These figures are based on Two Party Preferred (TPP) figures from the 2004 Federal Election for Victoria, Western Australia, South Australia, Tasmania and the Northern Territory where preferences have been distributed to the major sides of politics, the ALP and the Coalition.

New South Wales, Queensland and the Australian Capital Territory have undergone a redistribution since the last federal election so notional TPP figures have been calculated.
